EXHIBIT 7

The screenshot shows the Verizon Wireless support website. The browser address bar displays the URL: http://support.vzw.com/clc/faqs/Features%20and%20Optional%20Services/family_locator.html. The page has a navigation bar with tabs for RESIDENTIAL, BUSINESS, and WIRELESS. Below this is a search bar and a list of service categories: Phones & Devices, Plans, Accessories, Entertainment & Apps, Messaging, Business, and Support. The main heading is "Wireless Support".

On the left side, there is a "Search for Support" section with a search bar and a "Search" button. Below this is a sidebar with links to Support Home, Services, FAQs, Demos, and Forums & Blogs. The "FAQs" link is highlighted.

The main content area is titled "Select a Category to View Related Support Topics". Under the "Features and Optional Services" category, there is a list of links: # Features, 3-Way Calling, 411 Search, Alerts - Text and Picture, Asian Language, BilltoMobile, Call Forwarding, Call Waiting, Caller ID & Caller ID Blocking, Content Filtering, Data Session Call Waiting (CPOP), Equipment Protection, Family Locator (with sub-links for General Information, Configuring & Managing Family Locator, Getting Family Locator, Using Family Locator, and Changes from Chaperone to Family Locator), Friends & Family®, Group Communication, Network Programs, No Answer/Busy Transfer, Premium Voice Mail, Roadside Assistance, Scanlife and Mobile Barcodes, Skype mobile™, Spam Controls, TALKS™ for Verizon Wireless, Usage Controls, Verizon Safeguards, and Verizon Wireless 3G Mobile Network.

The "Questions & Answers" section contains several questions and answers:

- Can the Family Locator service be used anywhere that Verizon Wireless offers coverage?**
- I forgot my password. How can I retrieve it?**
- How do I find more details on setting up Arrival & Departure Updates on the web site?**
- Can I send messages using Family Locator?**
- How do I use Family Locator from my cell phone?**
- What if I change my Locatee's cell phone or Calling Plan after setting up Family Locator?**
- Can anyone else track my Family Member's phone? How secure is the service?**
The account owner with access to account information and the other family members designated as "Locators", will be able to access the Family Locator account, view location information and set up Locations for Updates to be sent to other individuals that they designate. The location information is only viewable through the Internet on a cell phone or PC. Locations can only be accessed by entering your account information including your password. It is very important that you keep this information private and not disclose your account information and/or password to others.
- How accurate is the service?**
- How is it possible that the level of accuracy can differ (address, intersection, or city) when locating the Family Locator Family Member phone multiple times, even though the location of the cell phone has not changed?**
- What are the system requirements to use the service?**
- How long does it take to locate a cell phone?**
- How do I find more details on setting up Scheduled Updates on the web site?**
Family Locator permits you to set up 10 Scheduled Updates. To access the Scheduled Update Wizard go to the Family Locator website and select the UPDATES tab, and click on the Add Update button.
Within the Add Update Wizard click on the "Add Scheduled Update" button to be guided through the process to add an Update.
Scheduled Updates send messages describing the location of the person carrying the Locatee mobile phone on the time and day(s) of your choosing.
- Can I locate my Family Member automatically at certain times on certain days?**

On the right side, there is a "Sign In" section with fields for User ID and Password, and a "Sign In" button. Below this is a "Get in Touch" section with links to Sign up for email updates, Locate a Verizon Store in your area, and Contact Us by email or phone. At the bottom right, there is a "Don't Worry About Losing Your Contacts" section with a link to Learn More and a video thumbnail for Backup Assistant Video.
